Steve Acker and I can continue working on the supplementary regulatory requests directly with Ed, Nora and Simon. So we do not propose to be on the call and the regulatory items can be removed from the agenda unless anyone else would prefer to discuss them as well. These items would be: antenna tower and site sharing; IXC agreement with Telus in Calgary; compliance with registrations and disputes with carriers; backhaul licenses.

Thank you,

Yael

All,

Please see an updated agenda for tomorrow's discussion. Note that the discussion will involve a smaller team given its sensitive nature, particularly around HR issues.

Dan – can you please confirm the tax section is relevant and if your tax colleagues have had a chance to review or add items? Your previous comments have been added to the legal section.

Please provide any comments or suggestions – once complete we can send off to UBS ahead of tomorrow's meeting.

Best,

Hi Dylan,

Perhaps you could add the following bullets under the "Legal" subheading

- Status update on discussions with lenders re defaults under loan agreements
- Update on status of trademark license documentation
- Overview of structure and status of draft SPA
- antenna tower and site sharing
- IXC agreement with Telus in Calgary
- compliance with registrations and disputes with carriers
- backhaul licenses
- roaming agreements

I'll let you know if our tax partner has anything additional on the tax side.

Thanks,

Dan

Team,

For the discussion planned tomorrow, we've drafted an agenda based on Friday's discussion and items that would be deferred to a breakout.

UBS has also asked us to break the sessions into 3 specific times as to commit resources only to the applicable sessions. We have allocated one hour each for now pending any comments.

Please advise of any discussion items to be added or adjusted. Specifically around legal, we would require input from Fasken on any outstanding items after Friday or new items which have surfaced.

Subject: RE: Project Turbine - Diligence Items

All,

We wanted to brief the group on upcoming items for this week. Firstly, on Tuesday we will be having the HR, Legal and Lender Relations breakout session as discussed during Friday's meeting. I've contacted UBS and logistics are still being planned, although they are aiming for 2PM – 5PM at Globalive offices.

Other breakout sessions which we discussed are below. Nothing was finalized in the meeting on Friday for these items, although we are happy to work with UBS to set up the sessions for the group:

- SPA discussion
- Legal/Regulatory breakout to cover any items outstanding after the Friday legal session
 - Fasken kindly advise if this should still be scheduled

In addition, we have updated our DD questions list from Friday and attached it here. After data room uploads and management sessions a majority of our initial questions were answered. We can of course add to this list, or use the breakout sessions listed above to have deeper discussions.

Best,

Dylan

Hi Zach,

Attached are:

1. Our working draft of a table summarizing termination provisions in the material agreements.
2. A memo providing an overview of the spectrum licenses.

I note that our initial IP review has found that WIND Telecomunicazioni SPA is the holder of WIND's trade-marks in Canada, not GWMC. The data room does not include any agreements for the use or assignment of the trade-marks by WIND Telecomunicazioni SPA to GWMC. We have requested them in the follow up due diligence request list that was sent over today.

So far, we have been unable to determine how WIND Telecomunicazioni SPA fits into the overall organizational structure of the GWMC and affiliates, as none of the documents and organizational charts provided in the data room list WIND Telecomunicazioni SPA. We may wish to get clarification on this point at tomorrow's meeting.

Hi Dylan,

I might change the third bullet to read "Overview of transaction structure and status of SPA". I gather we're expecting a new version of the SPA reflecting the newly proposed structure by tomorrow.

Stephen/Yael, is there anything on the regulatory side that you think need to be on the agenda for to tomorrow's session?

Zach, let us know whether you want one of our tax partners to be available, given that a discussion of the tax impact of the proposed structure is on the agenda.

Subject: RE: Project Turbine - Updated Diligence List

Hi Zach,

Attached are:

1. A high level overview of the target's capital structure.

2. A working draft of a table summarizing change of control provisions in the target's material agreements. It thus far includes any such provisions in the supply agreements and the loan agreements and will be supplemented as we make our way through other material agreements.

We expect to deliver the initial draft of a similar table summarizing termination provisions in the supply agreements as early as tomorrow. As with the attached table, it will be subject to ongoing updates as we work our way through other material agreements.

We are maintaining a running list of further documentary requests to address deficiencies in the data room information. The list is already growing long given that the data room (or at any rate the portion we're reviewing) appears to be somewhat stale. I gathered from this morning's meeting that they're struggling to respond to informational requests already made, so we should consider if now is the time to be making further requests. Saying that, some of the requests might be seen as more urgent than others, and worthy of making sooner rather than later, if you've been making ongoing requests for additional information (among the deficiencies, for example, is that the posted spectrum licenses are stale, the latest renewals not having been posted).

Best,

Dan

Hi Zach,

We expect to provide you with a high level overview of the capital structure, including equity and debt structure, tomorrow. It will doubtless not answer all of your questions but will provide the lay of the land.

Summaries of the loan documents, which will provide further detail, will take several days to complete since there are 230 documents, between Vendor Loans and Shareholder Loans, in the data room.

Summaries of the supply agreements are expected to be completed tomorrow given that they are significantly fewer in number (35 or so documents).

We can, if you wish, provide summaries on a piece-meal basis, as and when they are completed. Regardless, we will be preparing various reports and charts based upon the summaries. A first draft of a chart highlighting change of control provisions in the material agreements should be available by end day tomorrow. It will obviously be subject to supplementation as we work our way through summarizing the agreements.
