OK thanks only comment is on the regulatory approval condition to closing - I would suggest indicating clearly that West Face is Canadian owned and controlled as defined in the regulations (assuming it is of course) and has no relationship or affiliation with a Canadian incumbent (this is a left over concern from the Birch hill botched attempt with Rogers in the background --- this would make it clear that we are into standard regulatory approvals/timing, not an in depth review of whether West Face qualifies or not under the rules or whether or not West Face in control would be consistent with the 4th carrier policy - birch hill was not acceptable to the cdn govt for this reason - perhaps something you can at least communicate at the meeting?

Best regards
Tony

Tony – here is the version we are ready to go with. I plan on getting this out tonight. We will address funding availability in our meeting and what we need to do to assure them we have the liquidity to do this if it comes up.

Regards,

Tony
