Tony,

The delayed settlement feature you proposed does not work for VimpleCom has the objective is still a clean exit at a \$300 million EV.

My client is not prepared to have any portion of the proceeds contingent on a future event, in this case the acquisition of spectrum.

I am happy to discuss if required

Francois

I wanted to catch up with you today – in short, if we were to bump our bid to \$300 as opposed to \$260 mm does the delayed settlement feature of our proposal work for the vendor ?
